FOR IMMEDIATE RELEASE

CRAIG'S COLLISION CENTERS PROVIDED A ROUND TABLE DISCUSSION WITH NEW DRIVERS ON "WHAT TO DO IN CASE OF AN ACCIDENT"/

Grapevine, Texas... March 9, 2008... Craig's Collision Centers Director of Sales and Administration, Brook Bradley met and talked with 20 new Southlake Carroll High School drivers on behalf of the National Charity League, some having their drivers' licenses for only a few weeks. The topic was "What to Do In Case Of an Accident". It was a very revealing discussion. As new drivers, the discussion centered on the safety, concerns, and composure that needs to take place following a collision.

Bradley said, "there was great interaction between the new drivers and me with many excellent questions. We also discussed the need to understand their vehicle dashboard warning lights, gauges and what each one meant." At the conclusion of the discussion, Bradley provided a pamphlet each person could keep in their glove compartment suggesting things to remember after an accident. Should the public want one, stop by any Craig's Collision Centers location in the Metroplex, they're free!

If you would like to set up a "What to Do In Case Of an Accident" workshop at your school, contact Brook Bradley at 817-553-2124 or bbradley@tachq.com or Steve Morgan at 817-553-2131 or smorgan@tachq.com.
